Biography for Barry G. Stutts, P.E.
Manager, Responsible Care®
Bayer Corporation

Mr. Stutts is the Manager of Responsible Care® for Bayer Corporation in Pittsburgh PA, the US subsidiary of Bayer AG. Within Bayer Corporation Mr. Stutts promotes environmental, health and safety programs and performance improvement, including management system development and implementation. Outside of Bayer Corporation Mr. Stutts is active at the American Chemistry Council (ACC), the primary trade association for companies engaged in the business of chemistry in the US.

Mr. Stutts' prior work experience at Bayer Corporation includes various plant and corporate positions over the past sixteen years. Prior to joining Bayer Mr. Stutts worked as an environmental consultant and also as a technical expert on utility pollution control equipment with an original equipment manufacturer. Mr. Stutts earned his BS in Chemical Engineering from Carnegie Mellon University and his Masters in Business from Waynesburg College. Mr. Stutts is a registered Professional Engineer in four states and also teaches Business Management courses on the graduate and undergraduate level.

Mr. Stutts also serves as the Co-Chair for a non-profit group recently formed "To facilitate proper collection and disposal of household hazardous waste and minimize its generation through education in Southwestern Pennsylvania". As with any partnership, this effort has had its ups and downs and success will ultimately hinge on:

- Consistent participation of a core group of members;
- Visible commitment and support of the effort by local government; and
- Adequate financial support.
