During the 87th Annual Meeting, mayors are invited to take part and film short social media clips, sharing their thoughts on how mayoral leadership is making a difference on our key priority issues we are working on related to Infrastructure, Innovation, and Inclusion. Videos are being filmed in Kahili 1 on the 6th floor in the Kalia Executive Conference Center during meeting hours. Schedule an opportunity by emailing social@usmayors.org.

Press Opportunities with Strauss Media

We are pleased to once again welcome our radio booking partner, Strauss Media Strategies. This year, the Strauss team will be working for the duration of the Meeting out of Hibiscus 1 from the hours of 6:30 a.m. – 5:30 p.m. HST. If you are interested in being booked on your local radio stations back home to convey the work you're doing as mayors and to promote all that you're learning at the conference to make your cities stronger, please email them at uscm@straussmedia.com or feel free to stop by Hibiscus 1 while they are there and let them know of your interest.

Additionally, on Monday, July 1 Strauss Media will provide television booking services via satellite in the Ilima Boardroom. These TV interviews will be booked between 6:00 a.m. - 1:00 p.m. HST. If you wish to participate and be pitched to your local television morning news programs (ABC, NBC, CBS and FOX affiliates) with live and/or taped interviews, please contact the Strauss team at uscm@straussmedia.com.

Resolution and Committee Deadline

The deadline for submission of proposed resolutions by member mayors was Wednesday, May 29 at 5:00 pm EDT. This was the same deadline for standing committee membership changes. Members could submit resolutions and update committee memberships through our USCM Community web site at community.usmayors.org.

Voting

Only member mayors of a standing committee are eligible to vote on resolutions before that standing committee. Mayors who wish to record a no vote in a standing committee or the business session should do so within the mobile app.

Business Session Voting Credentials

Voting Credentials will be available for the Monday Business Session Vote at the Conference Registration Desk, beginning at 7:00 a.m. on Sunday, June 30.

It will be necessary for all Official Delegates who wish to vote to have these credentials in their possession. There is but one credential for each member city. If the Mayor of a member city is registered, the credential will be issued to him or her. If the Mayor is not registered and has not been in attendance at the Annual Conference, a registered official from their city must have been designated, in advance, in writing, to be the Official Delegate to receive the city's credentials.

If a registered Member Mayor anticipates that they will not be present at the Business Session, they may designate an alternate, who must be a registered official from their city, to pick up the city's voting credential and exercise the city's vote on Sunday morning. Such an alternate, however, cannot have the floor to speak to any issue under discussion.

The appropriate form for designating an alternate may be filled out at the Registration Desk from 7:00 a.m. to 11:00 a.m. on Sunday, June 30 and prior to the Business Session on Monday, July 1.

Kenny Endo: Taiko Drum Performance

In Japanese, taiko literally means "drum," though the term has also come to refer to the art of Japanese drumming, also known as kumi-daiko. Taiko has been a part of the Japanese culture for centuries. Centuries ago, taiko was used predominantly in the military arena. As it evolved, Japanese Buddhist and Shinto religions gradually began to take it on as a sacred instrument. More recently, taiko has enjoyed not only a resurgence of interest in Japan, where there are over 4,000 taiko ensembles, but also transplantation and evolution in North America. KENNY ENDO is one of the leading Taiko artists in contemporary taiko and percussion. He is at the vanguard of this genre, continuing to pave new paths in Japanese drumming even after forty years as a career taiko artist.

Keiki Halau

Founded in 1975 by Howard and Olana Ai, HALAU HULA OLANA, the School of Living Hula, has grown to become one of the largest hula schools in the islands. Hundreds of Hawai'i's keiki (children) have passed through the halau doors and gone on to charm local audiences and visitors at a multitude of venues on land and aboard cruise ships. Many of them have taken part in annual hula competitions, performed for four American Presidents, many visiting Dignitaries, and audiences overseas as well. Repeatedly, the Halau Hula Olana has been recognized for its excellence in both the Keiki and Adult Hula Competitions.

Hula Kahiko

In ancient Hawaii, a time when a written language did not exist, hula and its chants played an important role in keeping history, genealogy, mythology, and culture alive. With each movement – a hand gesture, step of foot, swaying of hips – a story would unfold. Through the hula, the Native Hawaiians were connected with their land and their gods. Before the arrival of Western missionaries, the hula was danced for protocol and social enjoyment. The songs and chants of the hula preserved Hawaii's history and culture. Hula Kahiko is the traditional or ancient style of hula tied to hula lineage with motions, voice, and choreography that comes from an old place, patterned after ancient hula. There were no musical instruments in the ancient Hawaiian culture so this unique style of hula is performed to chants and is accompanied by percussion instruments such as the pahu or ipu (different types of drums). Hula Kahiko requires much training and dedication and is regarded as being a dance of spiritual connection to ancient Hawaii.

Stand Against School Violence Through the Power of Design

11:30 a.m. - 12:30 p.m.

Coral II, 6th Floor

Concerns about school violence are front of mind for mayors today. Over the course of almost two decades, architects have worked with communities across the country to design safer schools for our students while creating excellent learning environments. Learn how a community-led process for redesigning Sandy Hook Elementary galvanized the community after tragedy and resulted in a safer yet still welcoming space; how experiencing the Virginia Tech shooting led to a career in school design; and hear from Parkland Mayor Christine Hunschofsky about community-healing efforts based in art and architecture. This panel will also explore leadership and policy tools mayors can use to help their communities build safer schools.

The Recycling Crisis in U.S. Cities: Working Together for a Sustainable Future

11:30 a.m. - 12:30 p.m.

Coral I, 6th Floor

Proper solid waste management and increasing recycling and diversion rates are part of most cities' sustainability goals and can be a vital component in reducing greenhouse gas emissions. Given China's new policy of rejecting United States recycled materials, cities find themselves at a crossroads. Can cities afford to keep on recycling and if so, what to do with the collected materials? Will domestic markets emerge or are new policies and incentives needed to jump start those efforts? How do you maintain consumer confidence with city recycling efforts? What is the role of manufacturers in promoting sustainability?

This session will focus on answering those questions as you hear from leading experts from the public and private sector about what can be done to weather this storm and achieve success. This will be an interactive session and all best practices and innovative ideas are welcome. Come join the discussion!

The United States Conference of Mayors Tribute at the Arizona Memorial

An Exclusive Invitation (**Mayors Only**)

4:30 p.m. Departure

Join us for a very exclusive excursion, hosted by the United States Navy on their private white boat launches, of famous Pearl Harbor, a US Naval base that was the scene of the devastating surprise attack by Japanese forces on December 7, 1941. Mayors will have a first-hand look at the various sites and memorials in and around Pearl Harbor including paying a special tribute to honor our fallen heroes at the Arizona Memorial. National Park Service historians will regale everyone with the stories of the Pearl Harbor attack which destroyed or damage 20 American naval vessels. More than 2,400 Americans died in the attack. Guests will feel as if they are reliving December 7, 1941, a “Day of Infamy” as they cruise around Pearl Harbor. The views and the sites from this amazing vantage point are unparalleled and rarely experienced by non-military. The conclusion of the excursions will include a flower drop by the guests, honoring the fallen sailors of the USS *Arizona* who went down with their ship. Taps will be heard being played from the Arizona Memorial to cap off what will be a once in a lifetime experience for all who participate.

Special Notes:

RSVPs REQUIRED: The launches have limited capacity, so mayors must RSVP for this event to Mr. Mark Guarnes, 808-477-8298 or J01P.PACOM.FCT@NAVY.MIL.

DEPARTURE: Motor Coaches will depart the hotel at 4:30 pm; following this special excursion, mayors will continue to the USS *Missouri* for the USCM evening event.

EVENING EVENT

A Tribute to our Military on the “Mighty Mo”

6:30 p.m. - 9:30 p.m.

This evening is one not to be missed. The USS Missouri played a key role as the site for Imperial Japan's formal surrender in Tokyo Bay to General MacArthur on September 2, 1945. Fondly known as the "Mighty Mo", the ship now operates as a historic attraction and memorial. Tonight guests will be hosted to a private party on-board and on the pier of the USS Missouri. Docents will be on hand to give tours, a jazz band will entertain on the stern of the ship, a USO Show will kick things up a notch under a tent on the forward pier. There will be an amazing fireworks show to close out the evening. The ship looks out over historic Pearl Harbor and the Arizona Memorial.

Important Transportation Note: The ship is located on Ford Island which restricts all private vehicles. You may only join this event by taking the hosted motor coaches.

Discussion Education & Health Interoperability to Drive Systemic Impact

We all know that education is the first social determinant of health, but educators and health care providers too often work in silos. This panel will explore three cities that are determined to create systems of interoperability to connect, track and improve the health and academic outcomes of their children. Leadership on inter-agency collaboration must start in cities, and leadership there must start with mayors who can pull together the different constituencies needed to drive systemic, data-driven, positive change. Come learn how mayors are harnessing data and analytics to make a difference and chart a path of success for children.

Auwana Hula

The dance of Hula is the heartbeat of the Hawaiian people. Originally the ancient Hula performance which was performed on June 29, 2019 was to tell the story of the Hawaiian people as they had no written form of communication. As time moved on, the hula was adapted to be danced to a variety of musical instruments introduced by other cultures, including the Portuguese who are recognized for bringing the ukulele to the islands. The story-telling continued in this form of dance is revered and practiced by many throughout the world. Today Hula is celebrated in many styles, dress with a variety of music. Our final Hula Performance is to thank all for sharing your time in our islands.
