Business Session Voting Credentials

Voting Credentials will be available for the Monday Business Session Vote at the Conference Registration Desk, beginning at 7:00 a.m. on Sunday, June 30.

It will be necessary for all Official Delegates who wish to vote to have these credentials in their possession. There is but one credential for each member city. If the Mayor of a member city is registered, the credential will be issued to him or her. If the Mayor is not registered and has not been in attendance at the Annual Conference, a registered official from their city must have been designated, in advance, in writing, to be the Official Delegate to receive the city's credentials.

If a registered Member Mayor anticipates that they will not be present at the Business Session, they may designate an alternate, who must be a registered official from their city, to pick up the city's voting credential and exercise the city's vote on Sunday morning. Such an alternate, however, cannot have the floor to speak to any issue under discussion.

The appropriate form for designating an alternate may be filled out at the Registration Desk from 7:00 a.m. to 11:00 a.m. on Sunday, June 30 and prior to the Business Session on Monday, July 1.

Kenny Endo: Taiko Drum Performance

In Japanese, taiko literally means "drum," though the term has also come to refer to the art of Japanese drumming, also known as kumi-daiko. Taiko has been a part of the Japanese culture for centuries. Centuries ago, taiko was used predominantly in the military arena. As it evolved, Japanese Buddhist and Shinto religions gradually began to take it on as a sacred instrument. More recently, taiko has enjoyed not only a resurgence of interest in Japan, where there are over 4,000 taiko ensembles, but also transplantation and evolution in North America. KENNY ENDO is one of the leading Taiko artists in contemporary taiko and percussion. He is at the vanguard of this genre, continuing to pave new paths in Japanese drumming even after forty years as a career taiko artist.

Hula Kahiko

In ancient Hawaii, a time when a written language did not exist, hula and its chants played an important role in keeping history, genealogy, mythology and culture alive. With each movement – a hand gesture, step of foot, swaying of hips – a story would unfold. Through the hula, the Native Hawaiians were connected with their land and their gods. Before the arrival of Western missionaries, the hula was danced for protocol and social enjoyment. The songs and chants of the hula preserved Hawaii's history and culture. Hula Kahiko is the traditional or ancient style of hula tied to hula lineage with motions, voice and choreography that comes from an old place, patterned after ancient hula. There were no musical instruments in the ancient Hawaiian culture so this unique style of hula is performed to chants and is accompanied by percussion instruments such as the pahu or ipu (different types of drums). Hula Kahiko requires much training and dedication and is regarded as being a dance of spiritual connection to ancient Hawaii.

Stand Against School Violence Through the Power of Design

11:30 a.m. - 12:30 p.m.

() Room, () Floor

Concerns about school violence are front of mind for mayors today. Over the course of almost two decades, architects have worked with communities across the country to design safer schools for our students while creating excellent learning environments. Learn how a community-led process for redesigning Sandy Hook Elementary galvanized the community after tragedy and resulted in a safer yet still welcoming space; how experiencing the Virginia Tech shooting led to a career in school design; and hear from Parkland, FL, Mayor Christine Hunschofsky about community-healing efforts based in art and architecture. This panel will also explore leadership and policy tools mayors can use to help their communities build safer schools.

The United States Conference of Mayors Tribute at the Arizona Memorial

An Exclusive Invitation (Mayors Only)

4:30 p.m. Departure

Join us for a very exclusive excursion, hosted by the United States Navy on their private white boat launches, of famous Pearl Harbor, a US Naval base that was the scene of the devastating surprise attack by Japanese forces on December 7, 1941. Mayors will have a first-hand look at the various sites and memorials in and around Pearl Harbor including paying a special tribute to honor our fallen heroes at the Arizona Memorial. National Park Service historians will regale everyone with the stories of the Pearl Harbor attack which destroyed or damage 20 American naval vessels. More than 2,400 Americans died in the attack. Guests will feel as if they are reliving December 7, 1941, a “Day of Infamy” as they cruise around Pearl Harbor. The views and the sites from this amazing vantage point are unparalleled and rarely experienced by non-military. The conclusion of the excursions will include a flower drop by the guests, honoring the fallen sailors of the USS *Arizona* who went down with their ship. Taps will be heard being played from the Arizona Memorial to cap off what will be a once in a lifetime experience for all who participate.

Special Notes:

RSVPs REQUIRED: The launches have limited capacity, so mayors must RSVP for this event to Mr. Mark Guarnes, 808-477-8298 or J01P.PACOM.FCT@NAVY.MIL.

Auwana Hula

The dance of Hula is the heartbeat of the Hawaiian people. Originally the ancient Hula performance which was performed on June 29, 2019 was to tell the story of the Hawaiian people as they had no written form of communication. As time moved on, the hula was adapted to be danced to a variety of musical instruments introduced by other cultures, including the Portugese who are recognized for bringing the ukulele to the islands. The story-telling continued in this form of dance is revered and practiced by many throughout the world. Today Hula is celebrated in many styles, dress with a variety of music. Our final Hula Performance is to thank all for sharing your time in our islands.
