Plenary Panel   Economic Development Through Microbusinesses: The New GoDaddy Venture Forward Initiative Discussion

Microbusinesses are all around us. However, because these very-small businesses are either too new or too small to show up in traditional economic tracking, their impact has largely gone unnoticed. Venture Forward’s mission is to change that. Venture Forward is a multi-year research effort by GoDaddy to quantify the impact of 20 million microbusinesses on the economy and their communities. The data is freely available to help policymakers better understand the importance of these microbusinesses, and how to best support them. Learn how microbusinesses are creating more inclusive and resilient economies.

SPECIAL SESSIONS

Advancing a Disability-Inclusive Workforce
11:45 a.m. - 12:45 p.m.

During the Covid-19 pandemic, 1 in 5 Americans with disabilities became unemployed, and the disability employment rate remains dismally low. As mayors reshape local economies in recovery, while striving to make cities more equitable, more inclusive and more compassionate, it is clear that they must improve outcomes for Americans with disabilities. This panel will showcase best practices on disability employment and highlight the new possibilities that remote work has opened for employers to maximize the potential of these workers.
